

## KEY PRODUCTS

The One Center City plan will establish a long-term transportation and public realm vision for 2035, and create an implementation plan for the near- and long-term. Together, the vision and implementation plan will guide policy and program actions, as well as capital investments by the city and its agency partners and stakeholders.

	 <b>MILESTONE</b>	 <b>KEY PRODUCTS</b>	 <b>DESCRIPTION OF PRODUCT</b>
2016	1. State of Center City Mobility and Public Realm	Center City Opportunities and Challenges Map	Map and timeline depict Center City existing conditions and upcoming projects, both transportation and public realm
	2. Values and Performance Measures	Guiding Principles, Values, and Performance Measures Summary Report	Principles guide the planning process and help to shape the vision and goals for decision making; performance measures can be used for evaluation of near-term solutions
	3. Near-Term Opportunities	Near-Term (2019) Opportunities, Challenges, and Solution Types Summary	Summary of near-term opportunities and challenges for mobility and public realm, and introduction to the types of solutions (e.g., transit service, capital projects) that can be considered
2017	4. Potential Near-Term Solutions	Potential Near-Term (2019) Solutions and Analysis of Costs, Benefits, and Impacts Report	Individual project and program descriptions explain each potential near-term solution, including costs and benefits
	5. Near-Term Recommendations	Near-Term (2019) Recommendations Report	Near-term recommendations include specific projects and programs, costs, and implementation timelines
	6. Scenario Planning Process	One Center City State of Mobility and Public Realm Report	Graphic and reader-friendly 15-page summary of long-term opportunities and challenges for mobility and public realm
		Draft Long-Term Vision, Outcomes, and Evaluation Framework Summary	Draft Center City vision, goals, and objectives build on guiding principles and are supported by draft performance measures to be used for decision making
	Scenario Planning Primer	Scenario framing and development process explains 2023 and 2035 multimodal and public realm elements of baseline scenarios (i.e., the starting place) and identifies assumptions and uncertainties	
7. Vision Framework	One Center City Vision Report	Graphic and reader-friendly document presents final Center City vision, goals, and objectives with evaluation measures for long-term scenarios	

**MILESTONE****KEY PRODUCTS****DESCRIPTION OF PRODUCT**

2017

8. Draft 2023 and 2035 Scenarios	Draft 2023 and 2035 Scenarios and Evaluation Approach Technical Memo	Technical memo outlines three future multimodal scenarios (developed to contrast different futures) for 2023 and 2035, including both mobility and public realm elements as well as transportation technology trends; evaluation approach (based on vision and goals) guides decision-making for scenarios
9. Scenario Analysis	Preliminary Scenario Evaluation Summary	Preliminary results of evaluation and modeling of 2023 and 2035 scenarios
10. Draft 2023 and 2035 Recommendations	Scenario Evaluation Report	Detailed scenario evaluation outcomes, including scenario "report cards" for 2023 and 2035
	Draft Recommended Scenarios Report	Recommended 2023 and 2035 scenarios, including draft project lists and plans (with cost estimates) as well as design principles and modal priorities for Center City streets
11. Draft Action Plan	Draft Implementation and Funding Plan	Overview of funding options and potential phasing of both mobility and public realm projects and plans
	Draft Action Plan	Draft five-year action plan (i.e., the Center City work plan), including projects, plans, and programs; funding; and public realm activation and maintenance framework
12. Draft One Center City Mobility and Public Realm Plan	Draft One Center City Mobility and Public Realm Plan	Summary recommendations for One Center City, including mobility and public realm projects and plans, costs, funding strategy, and near-, mid-, and long-term implementation recommendations
13. Final One Center City Mobility and Public Realm Plan	Final One Center City Mobility and Public Realm Plan	Report and multimedia executive summary of final mobility and public realm recommendations, capturing all elements described above (e.g., plans, projects, programs, costs, funding, phasing)
