

What is One Center City?

One Center City will bring together many communities, perspectives and partners to create a plan for how people from the city and the region move through, connect to and experience Center City. It is a public/private partnership between the City of Seattle, King County, Sound Transit and the Downtown Seattle Association.

Working together we will create a 20-year vision and action plan to improve transportation and the public realm for everyone – whether by foot, bike, freight, car or transit.

Get to know your fellow Advisory Group members

Thank you for serving on the One Center City Advisory Group! Here's a little more info about the others joining you around the table.
